Residential Properties

Recent developments in Nicosia, Limassol and elsewhere provide a high standard of residential properties for sale or rent. In turn, this has depressed the rental and sales prices of older buildings, creating unprecedented opportunities for investment.

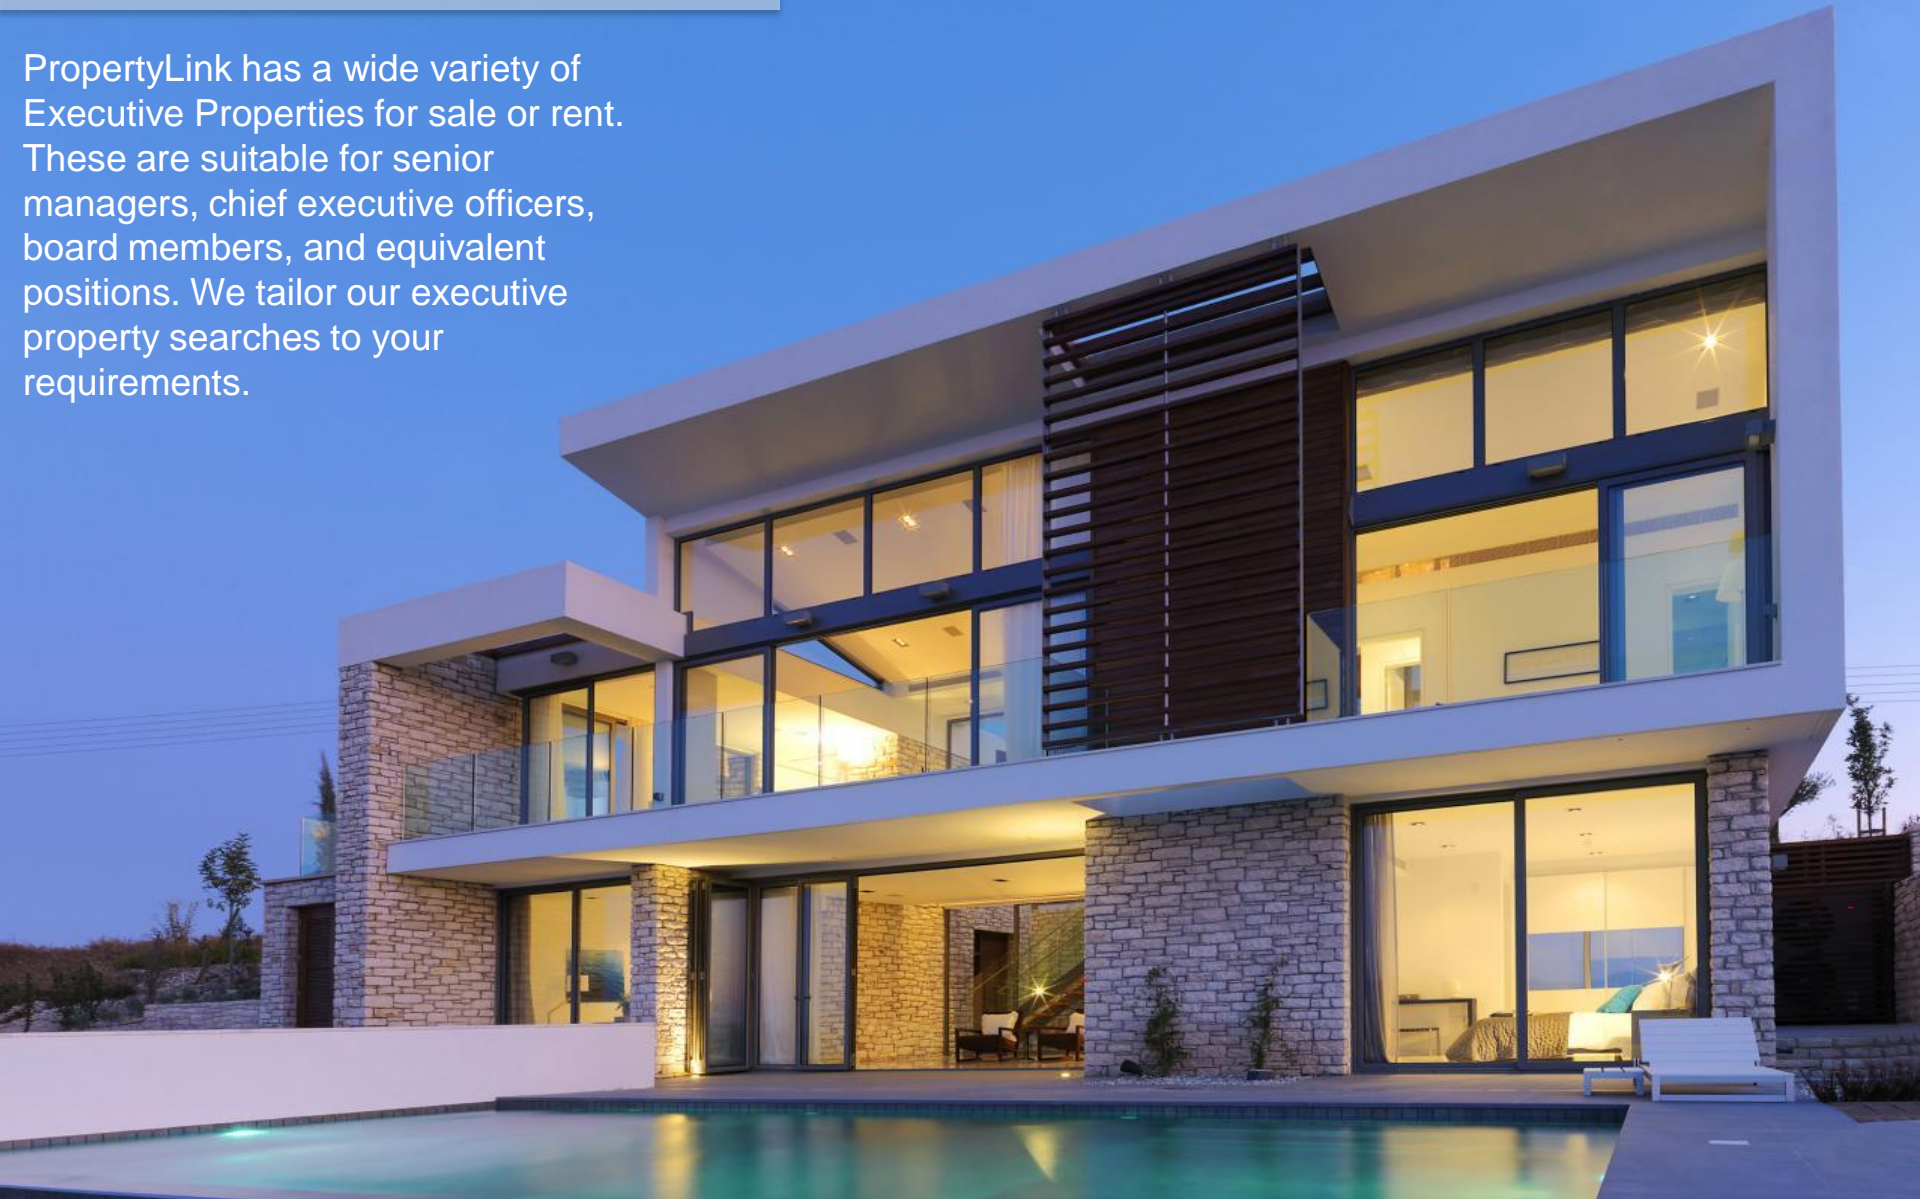

Staff / Visitor Apartments

If you have frequent corporate visitors or short-term staff housing needs, PropertyLink can arrange short-term rentals and property management specifically tailored to your needs. We identify properties a short distance from your office, providing a cost-effective, efficient solution.

Executive Properties

PropertyLink has a wide variety of Executive Properties for sale or rent. These are suitable for senior managers, chief executive officers, board members, and equivalent positions. We tailor our executive property searches to your requirements.

Commercial Property

The revised Cyprus-Russian Double Tax Treaty and stricter audits on Cypriot companies in Greece are leading to high demand for commercial property. Furthermore, the very promising prospects for the island associated with the exploration of natural gas, lead to more international corporations interested in setting up offices in Cyprus.

PropertyLink determines your office space needs and develops the best, personalised solution for you. PropertyLink offers short term solutions such as fully equipped serviced offices as well as long term office solutions.

Embassies & Delegations

We provide flexible, cost-effective and secure accommodation for embassies, delegations, and aid programmes. Use our services to scale up or scale down your operations as needed.
